

Instructions for Importing "C-Files"

1. Open League Manager, go to "League Play" and choose "Load Commissioner File."

The screenshot shows the 'League Manager Power Tool' application window. The 'League Play' menu is open, and 'Load Commissioner File' is highlighted. The main window displays a schedule for 'U-GAB - Great American Baseball(r)(p)' for October 2000. The schedule is a table with columns for days of the week and rows for teams. The teams listed are American League (BRO, CC, WIL, OB, SC, SB) and National League (r) (NY, MON, RET, WAR, CHA, CHI). The schedule shows games for October 17, 18, 19, 20, and 21. The status bar at the bottom indicates 'Total: 262, Unread: 2'. The taskbar shows the Start button and several open applications: 1962 - Microsoft Outlook, FoxMail, When do we start GAB..., and League Manager ...

2. The following dialog box should appear. Navigate to the path where you saved the "C-begin1.alp" file and select "OK." Hopefully, it will be just that simple!

The screenshot shows the 'Select Commissioner Transfer File' dialog box. The 'File name' field contains 'c-*.alp'. The 'Folders' list shows the path 'c:\bbw100\u-gab.wdd\c-files'. The 'List files of type' dropdown is set to 'Transfer Files (C-*.ALP)'. The 'Drives' dropdown is set to 'c: win95osr2'. The 'OK' button is highlighted.
